## EDUCATION

### TOBB UNIVERSITY OF ECONOMIC & TECHNOLOGY

BD in Computer Engineering

GPA: 3.62

9/2018 - 1/2023

Ankara, Turkey

## EXPERIENCE

### DATA SCIENCE INTERN

STM Savunma Teknolojileri Mühendislik ve Ticaret A.S.

- Worked on weak supervision models on NLP
- Reduced need of data up to 80% on non pretrained models and up to 20% on pretrained models with self training and weak supervision frameworks and models such as snorkel
- Reduced labeling time from a weeks to days, and manpower from dozens to handful

9/2021 - 12/2021

Ankara, Turkey

### SOFTWARE ENGINEERING INTERN

HAVELSAN HAVA ELEKTRONİK SANAYİ VE TİCARET A.S.

- Developed a front-end web video conference application on React
- Developed a virtual background system for video conference application by using Tensorflow

1/2021 - 5/2021

Ankara, Turkey

### TEACHING ASSISTANT

TOBB University of Economic & Technology

- Gave lab lectures, made and read quizzes, gave projects in Digital Design lab
- Worked with Verilog HDL and FPGA

5/2019 - 8/2019

Ankara, Turkey

## SKILLS

#### PROGRAMMING LANGUAGES

Python | C | Java | JavaScript

#### FRAMEWORKS

Git | TensorFlow | React | React Native

#### OTHER SKILLS

HTML | CSS | Redux | SQL | Linux | Bash Script

#### COURSES TAKEN

Cybersecurity | Algorithm Analysis | Software Product Line Engineering | Machine Learning | Artificial Intelligence | Data Mining

#### LANGUAGES

Native: Turkish | Fluent: English | Beginner: German

## PROJECTS

### WLOBBY

- An application that people can create and join adverts for the movie they want.
- Developed the in-app chat system and front-end in React Native
